MEDICINES.

TAICE

For all diseases of the Liver, Stomach and Spleen.

WILL CURE

DYSPEPSIA. I MUST OWN that your Simmons' Liver Regulater fully deserves the popularity it has attained. As a family medicine it has no equal. It cured my wife of a malady I had counted incurable -that welfsbane of our American people, Dyspepsia.
A. E. P. ALBERT,
Professor in Nicholas Public School, Parish of Ter-

rebonne, La. MALARIOUS FEVERS

You are at liberty to use my name in praise of your Regulator as prepared by you, and re-commend it to every one as the best preventive for Fever and Ague in the world. I plant in southwestern Georgia, near Albany, Georgia, and must say that it has done more good on my plantation among my negroes than any medicine I ever used. It supersedes quinine if taken in time Yours, &c., Hon. B. H. HILL, Ga.

CHILDREN!-Your Regulator is superior to any oth er remedy for Malarial Diseases among children, and it has a large sale in this section of Georgia.—[W. M. Russell, Albany, Ga.

CONSTEPATION. TESTIMONY OF THE CHIEF JUSTICE OF GEORGIA.-I have used Simmons' Liver Regulator for constipation of my bowels, caused by a temporary derangement of the liver, for the last three or four years, and always, when used according to the directions, with decided benefit. I think it is a good medicine for the derangement of the liver—at least such has been my personal experience in the use of it.

HIRAM WARNER,

Chief Justice of Georgia.

SICK HEADACHE. EDITORIAL-We have tested its virtues, personally, and know that for Dyspensia, Liliousness and Throtbing Headache, it is the best medicine the world eversaw. We have tried forty other remedies before Simmons' Liver Regulator, but none

of them gave us more than

temporary relief; but the

Regulator not only relieved

but cured us .- [Editor Telegraph and Messenger, Ma-COLIC AND GRUBBS IN HORSES. Having had during the last twenty years of my life to attend to Racing Stock, and having had so much trouble with them with Colic, Grubbs, &c., gave me a great deal of trouble. Having heard of your Regulator as a cure for the above diseases, I concluded to try it. After trying one package in Mash I found it to cure trying one package in Mash I found it to cure the color to be triving one package in Mash I found it to cure the color to be triving one package in Mash I found it to cure the color to be trivial to prove the congrants. Two rooms amidships have in every instance. It is only to be tried to prove

as to the cure of horse.

MONDAY, FEBRUARY 5, 1877.

A CHEMICAL ANALYSIS OF TEARS. - Modern men of science respect nothing. Nothing, says an English writer, is sacred in their eyes. We might, perhaps, forgive even the vivisector who flays a live animal in order to ascertain at what rate pain travels from any given portion of a nerve to the centre of sensation; but we cannot pardon these unfeeling scientists who are ruthlessly upport zing these portions of the human body which form the principal part of the stock in trade of the novelist and poet. The unimaginative wretches assure us that the heart is merely a pump, and add that when we sing of hearts of oak we are merely enthusiastic about wooden pumps; to fold the beloved to our heartsis simply to press her against a pump, and to say of a milkman that he is warm-hearted to only to affirm that his pump is never

frezen. Till now, however, those expressive and eloquent messengers of the heart-tears, had es caped the profanation of the men of science. A Continental savant has at length dared to make a chemical analysis of those beautiful poetical machines. A tear, says science, is merely a chemical combination of oxygen, bydrogen, azote, etc., so that when we say "the charming ereature's face was bedewed with tears," we really mean that her vision was moistened by a solution of oxygen, hydrogen, azote and other chemical bodies too numerous to mention. The savant above mentioned, to be certain that his experiment was perfermed on a genuine tear,

obtained one from the eye of a brother savant. To make a man of science weep may seem an impossibility; but our ingenious savant did so by telling his brother savant that a rival of his had been elected a member of a learned society to which he was ambitious of belonging. The ruse was most successful, and the genuine tear at once obtained. It is to be hoped that some learned society will give this pitiless au alyzer a mission to the Nile, to study the tear of a crocodile and that the mosster will swallow him. It would not be to severe a punishment for his attempt to lessen the little poetry that still remains in life.

BOUND FOR AUSTRALIA. - Pier S East niver yesterday was a scene of bustle and activity, as the bark N. Boyeton, Captain Blanchard, was taking aboard her party of emigrants, bound the emigrants. Two rooms amidships have what I have said in its praise. I can send you been arranged for the accommodation of marcertificates from Augusta, Clinton and Macon, ried couples, of whom there are ten, and one room on the port side for three unmarried women. The starboard side has been reserve

for males only. The N. Boynton is a bark of 1,800 tons burden, said to be a good scagoing vessel, and her commanding officer expects to make the passage in 100 days. The passage money is \$37.50, gold; the agents, R. W. Cameron & Co., expecting to be indemnified by the colonial government for the difference between the fare charged the emigrant and the full cost of passage, which is \$100, gold. The agents discriminate in their choice of passengers, and take none but mechanics or laborers who may be of service in the projected improvements of the colony. Clerks and others whose occupations have been sedentary are not accepted at the rate of fare stated, these parties being considered nufitted to the requirements of a new settlement. The agent speaks very favorably of those who have engaged passage, both as to their intelligence and pecuniary means, some of them having bought bills of exchange ranging

ton about March I, and will probably carry even a larger number of emigrants than the Boynton, as strong inducements are held out by the authorities to encourage colonization.-N. Y. Herald. DEATH OF "TODDIE," OF "HELEN'S BARIES." Charles B. Habberton, aged four years and ten

The bark Sierra Nevada will follow the Boyn-

from £50 to £100 sterling.

months, the "Toddie" of "Helen's Babies," the popular work of John Habberton, his father, died on Tuesday last at 62 Columbia Heights, I died on Tuesday last at 62 Columbia Heights, Brooklyn, of diphtheria, and was buried in Hartford, Conn. The chied was beloved by all who knew it, beyond the interest that was felt in it by those who connected it with the story. "Budgy," the other one of "Helen's Bubles," is a seven year old bay of Mr. Habberton. The death of Charles has stricken the father with much grief.—N. Y. News.
